England would be able, it is claimed, to raise a sea-going reserve of 50,000 men from the British merchant service

LORD SALISBURY AND CRETAN AFFAIR

Li Hung Chang's Reception in England

FOREIGN NEWS OF GENERAL NOTE

General Weyler Denies the Truce.
Bank of New Zealand Backs Corporation—Li Going Home in a Rush.
(Czar of Russia is Nervous, Etc.)

LONDON, August 8.—Indications are beginning to multiply that Europe's respite from political difficulty and crisis is almost at an end. It seemed at one time this week that the Turkish-Cretan question had assumed a dangerous phase as did the Armenian difficulty last autumn. This danger has by no means disappeared, although today's aspect of the crisis is a little less threatening.

The indecisive opportunist attitude of the Salisbury Government has excited another outburst of continental indignation, which is significantly potent in its unrestrained expression. The German press especially has been unanimous in its denunciation of the English policy. The interpretation which many continental observers now put upon the situation is that England is anxious to agitate the Eastern question in the hope that the continental powers, now practically in agreement, will fall out among themselves and in order to distract attention from the Far East, where English interests are in the greatest peril, and where Lord Salisbury hopes to gain time and opportunity to avert further disaster.

The effect of this belief, naturally, is to bring the continental powers still closer together, and to increase their antipathy to England. The remarkable change in the English attitude toward China also arouses a renewed suspicion abroad. It was openly announced a month ago that little or no official notice would be taken of Li Hung Chang in this country. Then it was suddenly decided to treat him with the greatest consideration. This change at first caused the report that the negotiations at Moscow had fallen through, and there was a chance for England to re-establish herself in China's good graces.

The latest information from Japan, however, tends to confirm the rumor that Lord Salisbury's indifference and opportunism have forced that country also into the arms of Russia. "The splendid isolation" of Great Britain would thus be made still more complete, and this last desperate attempt to renew friendship with China would be explained.

The Chinese Viceroy has shown himself quite willing to listen to all the nice things which English statesmen and the royal family wished to say to him, and he has suavely made a liberal response from his sweet store of Oriental compliments without once putting his tongue in his cheek when uttering them. He has certain important requests to make of the British Government in the way of permission to increase Chinese tariff on imports and in all he shows a consummate knowledge of English character, and is continually dangling the bait of Chinese trade before their eyes. This grand old man of the East already shows, as the result of his few weeks of travel, a wonderfully clear insight into the essential differences between his people and those of the younger nations.

THERE IS NO TRUCE.

Gen. Weyler Denies That He is Willing to Compromise.

NEW YORK, Aug. 8.—General Weyler cables the Herald from Havana. "There is no truce, but pardon is offered to all who surrender themselves with their arms."

The Herald correspondent at Havana cables: At Mansillo a big sensation has been caused by the Government ordering the arrest of Major Robledo, commander of the local Spanish volunteer force, and Captain Raventos of the armed Fireman's Brigade, who has also been in active military service since the beginning of the revolution. It is alleged that these officers are implicated in a conspiracy to procure the surrender of important outposts to the enemy in event of the town being attacked by Gomez and Garcia's insurgents. A court martial to try the officers has been called.

Maximo Gomez is reported to be still encamped in Eastern Cuba, near Sabana, Miranda, endeavoring to organize new cavalry forces to counterattack to the west.

BANK OF ENGLAND INNOVATION.

Its Aid Given a Newly Organized Stock Company.

LONDON, Aug. 8.—Much commotion has been caused in financial circles in the city by the fact that the Bank of England, which heretofore has refused to have its name mentioned in prospectuses of limited liability companies, has agreed to receive subscriptions on behalf of a paper manufacturing concern which has just been turned into a limited liability company under the title of "A. M. Peebles & Sons, Limited."

ed," the prospectus of which is now being advertised in the daily papers in London and the provinces. The total share and debenture capital is \$305,000 (\$1525 000,000).

This new departure of the great bank is viewed by all the smaller banks with dismay, as it is recognized on all sides that if the Bank of England is open to receive subscriptions on behalf of other intended companies, it can practically monopolize this line of business in the future.

CZAR GETTING NERVOUS.

Fear of Nihilists is Preying on His Mind.

BERLIN, Aug. 8.—A dispatch to the Neuste Nachrichten from Munich today denies the report that Prince Hohenlohe, the Imperial Chancellor, has resigned, and says that the sole object of his visit to Wilhelmsofen, where Emperor William is staying, was to make a report of affairs in the East.

In spite of denials, it is generally believed that Professor Mendell, the insanity specialist, has been summoned to St. Petersburg to attend the Czar, who is said to be in a state of extreme nervous excitement, owing to the discovery of renewed nihilistic activity. The Czar is reported to be in hourly dread of his life, and hundreds of arrests have been made during the past fortnight at St. Petersburg, Warsaw, Kieff and Moscow.

BICYCLE RECORD BROKEN.

Parsons Hides an Indoor Mile in 1:54.1-4.

CHICAGO, Aug. 8.—At the bicycle races at the Coliseum this afternoon, Parsons, the Australian champion, made a paced mile with flying start in 1:54.1, the fastest mile ever made in the State, and breaking the world's record for the one-mile indoor, which was 2:03.4.

In the professional two-mile handicap J. P. Eaton, scratch, won; W. Kenyon, 85 yards, second; J. T. Starbuck, scratch, third. Time, 4:28. This breaks the world's indoor record for two miles.

John S. Johnson, paced by Parsons, rode an exhibition half-mile in 0:54.4-5. The same rider also went a quarter of a mile, unpaced, from a flying start, in 0:26.4.

LI WILL HURRY HOME.

Fears That All is Not Well Within His Empire.

LONDON, Aug. 8.—The plans for Li Hung Chang's visit to the United States have been greatly curtailed. He will hurry home in haste, and it is hinted that this is due to intrigues against him in China. He will arrive in New York Friday, August 21st, and will hold his first reception on Saturday, the following day. On Sunday, August 23d, he will take an early train for Philadelphia, where he will lunch and remain for a few hours. During the afternoon he will proceed to Washington, where he will remain a week. He will then go direct to Vancouver, B. C., where he will embark for China.

TO BUY WALES' TOWN HOUSE.

Alleged Desire of the Young Duchess of Marlborough.

NEW YORK, Aug. 6.—The World's London cable says. According to gossip prevalent among her acquaintances, the new Duchess of Marlborough has set her heart on recovering for the family the possession of Marlborough House, now the town residence of the Prince of Wales. It was built by the famous architect, Sir John Van Bruges, in 1710, for the great Duke of Marlborough. Rumor goes that a proposition to buy back the house has been made in behalf of the Duke to the Prince, but it is understood the subject could not be entertained at present.

Plans for Tour of Czar.

LONDON, Aug. 8.—A good deal of political significance is beginning to be ascribed to the tour which the Czar will make next month. It is now positively announced that he will visit Berlin, Copenhagen, Balmoral and Paris in the order named. The French especially will try to make the occasion as glorious as the Russian fetes in Paris in October, 1893, and beyond the splendors of that time it is impossible even for Paris to go.

JAPAN ECLIPSE.

The Coronet Party Fail to Get a Good View of the Corona.

It will be very much of a disappointment to Amherst College when it is learned there that the eclipse expedition which went to Japan on the yacht Coronet some months ago did not meet with any great degree of success. Professor Todd of Amherst and his party had everything in readiness in Yezo to view the eclipse on August 9th. The following extract of a letter received from one of the yacht Coronet party and dated Yokohama August 19th will give an idea of what was accomplished:

"As yet we have only had telegrams from Professor Todd but they were rather sad. He said it was cloudy the corona was only partially visible and that they had taken a few photographs. They must be terribly disappointed after so much preparation to have such small results, but we hear that at all the other stations chosen by different parties nothing was seen at all. We observed partial eclipse at Mivanoshita with the help of smoked glass."

POLITICAL POT IS BUBBLING MERRILY

Gold Democrats Working Hard to Down Bryan.

ALL HANDS HARD AT WORK.

Texas Populists Fuse With Republicans—Bryan on His Way East—May Meet Reed While in Maine—Hoke Smith to Withdraw From Cabinet

INDIANAPOLIS, August 8.—The first meeting of the Executive Committee announced late last night by Chairman Palmer of the gold Democrats was held today, beginning at 10 o'clock. There were present all members as follows: W. D. Bynum, Indianapolis; W. H. Haldemann, Louisville, Ky.; Frederick Lenman, St. Louis; John Hopkins, Chicago; Ellis Usher LaCrosse, Wis.; Samuel H. Golding Cleveland, O.; Charles Tracy, Albany, N. Y.; F. W. M. Cutcheon, St. Paul, Minn.; and J. M. Falkner, Montgomery, Ala.

The committee was organized by electing Bynum chairman and John R. Wilson secretary. A transportation committee was appointed to arrange rates for the National Convention. It consists of Hopkins, Falkner and Golding. A committee on campaign literature was appointed consisting of Cutcheon and Usher. The literature committee was authorized to proceed at once to secure and distribute gold-standard literature.

The headquarters for campaign work previous to the convention are to be this city. The next meeting will be held at Chicago, August 17th. Meantime the address to the country authorized last night will be issued.

John R. Rooney, secretary of the Honest Money Democratic League of America, stated that the organization had a promise that Bourke Cochran will reply to the Madison-Square Garden speech of W. J. Bryan two days afterward. Cochran's speech will be delivered either at Madison Square, or the Grand Central Palace. The executive committee separated with the understanding that its work will be vigorously pushed.

HOKA SMITH'S RESIGNATION.

Said to be in the Hands of President Cleveland.

NEW YORK, August 8.—The World's Washington correspondent says Secretary Hoke Smith's resignation as a member of the cabinet and head of the Interior Department is said to be in the hands of the President. The authority for this statement is a close personal friend of Secretary Smith.

As the story goes Secretary Smith forwarded his resignation to the President at Gray Gables on the same day he authorized the publication in his paper, the Atlanta Journal, of an editorial declaring that the paper would support Bryan and Sewall, although deprecating the platform on which they were nominated. In his letter to the President, it is said, Secretary Smith announced the position he was going to assume, pointed out that he had during the campaign in Georgia given a solemn pledge that he would abide by the action of the Chicago Convention, and then went on to say that he felt that he could not in justice to the President longer remain in his Cabinet.

MISSOURI DEMOCRATS.

Gold Wing Prepares to Send National Delegates.

ST. LOUIS, Aug. 8.—At a meeting of the Missouri Provisional State Central Committee of the National Democratic party, held today, a call was issued, signed by James O. Broadhead, chairman, for the State convention to be held in this city August 26th. The convention is called for the purpose of selecting delegates to represent the State of Missouri in the National Democratic convention at Indianapolis. A State Central Committee will be selected, and presidential electors, members of Congress and such other officers, State or local, as may be determined upon, will be nominated.

BRYAN MAY MEET REED.

Will Go to Maine to Make Several Speeches.

BATH, Me., Aug. 8.—William J. Bryan, after he is notified of his nomination in New York on August 12th, will visit Arthur Sewall at his residence in Bath for a week. He will then make six speeches in this State. The plan is if it can be arranged, for him to deliver a speech in Lewiston during the week of the Maine State Fair, and to have it on the Fair Grounds. It has been proposed that the Republican and Democratic State committees arrange to have a joint debate and to have Thomas B. Reed speak with Bryan.

JERRY SIMPSON FOR CONGRESS.

Nominated by the Populists and Democrats of Kansas.

LARNED Kas., Aug. 8.—Both Congressional conventions Populist and Democratic, which met in this city today, made Jerry Simpson their candidate for Congressman from this, the

big Seventh district. In both instances the nomination was made by acclamation. Both conventions also declared for free silver at the ratio of 16 to 1. Simpson was elected from this district in 1890 on a fusion ticket, defeating Colonel W. H. Halliwell of Wichita. He was re-elected in 1892, defeating Chester Long, and in turn was defeated by Long in 1894. Long is again the Republican nominee.

POPULISTS FOR MCKINLEY.

Texas Convention Favors Fusion With Republicans.

GALVESTON, Tex., Aug. 8.—The Populist State Convention, after an all-night session, adjourned early this morning. It reassembled again at 8:30 p. m., but 153 delegates were in attendance.

The convention adjourned this afternoon. Three campaign managers were named, and it is understood that the plans for the campaign will be directed on the line of fusion with the Republicans, giving McKinley the electoral vote and the Republicans in turn assisting in electing the Populist State ticket. There was no expression regarding the action at St. Louis beyond endorsing the platform.

ON HIS WAY EAST.

Candidate Bryan Stops Over Sunday in Chicago.

CHICAGO, Aug. 8.—Candidate Bryan reached this city today. He was greeted by crowds all along the route and was given an ovation on his arrival here.

Mr. and Mrs. Bryan will attend divine service Sunday morning at one of the city churches. Which church will be honored with the presence of the party is not announced for the obvious reason that it would draw an inconvenient crowd of curious people. The balance of the day will be spent in quiet and retirement and rest for the journey eastward, which is to begin at 11:30 p. m. over the Pennsylvania Railroad to Pittsburg.

APPEAL TO OLD SOLDIERS.

Urged to Exert Themselves to Defeat Bryan.

NEW YORK, Aug. 8.—The Union Veterans' League, of which Major General Daniel E. Sickels is president, and Major General William B. Franklin and Horace Porter are vice presidents, today issued an address to the Union veterans of the late war. The address in part is as follows:

"Comrades: Your country is in great peril. In the present Presidential campaign dangerous combinations again threaten the integrity of the Government. Misguided men conspire to bring repudiation, dishonor and financial ruin upon this nation, once saved by your valor."

CIRCULATED FOREIGN COIN.

Report That Chicago Merchants May Be Prosecuted.

DENVER, Aug. 8.—A special to the News from Chicago says the merchants and other business men who have been circulating Mexican dollars for campaign arguments, giving 50 cents worth of goods and a Mexican dollar for an American dollar, are to be prosecuted for circulating foreign money, which, it is claimed, is illegal.

Will Navigate the Air.

SAN FRANCISCO, Aug. 8.—Articles of incorporation were filed yesterday by the Atlantic and Pacific Aerial Navigation Company. The company is organized for the purpose of constructing, navigating and equipping airships, "to purchase and sell letters patent in relation to machines or devices for navigating the air, to carry dispatches, mail and other valuable matter, to transport war messages and war material, to elevate lookouts over battlefields, and to carry dynamite and other explosives over cities, forts and vessels in time of war."

The company also intends "to sell aerial machines to the United States and to foreign countries, and to convey patent rights therefor, and to do all things necessary for the business of equipping, constructing and navigating airships in all portions of the world." The directors of the company are C. A. Smith, R. C. Smith, I. J. Truman, G. T. Gaden and M. A. Terry. The capital stock is placed at \$1,000,000, and of that amount \$500 has been subscribed for.

Discounting American Paper.

TORONTO, Ont., Aug. 8.—The Standard Bank has given notice that after today American one-dollar bills or silver certificates will be discounted at the rate of 10 per cent. The other city banks will adopt the same rule.

A DERELICT'S JOURNEY.

The information as to the position of derelicts systematically collected by the British Admiralty is of great value to the sailor and many interesting cases of long-lived vessels and wonderful journeys are brought to light in this way. Among the most noteworthy is the case of the schooner Fannie E. Woolston. This vessel was afloat from October, 1891, certainly to as recent a date as August, 1894, and during the greater part of this period she was in fairly close proximity to the American coast. It should be mentioned, however, that during the three years she was drifting no attempt appears to have been made to destroy her. The American schooner W. L. White is an instance of a vessel drifting completely across the Atlantic. She traversed that ocean in 1838. The number of derelicts at present afloat is comparatively few owing to the absence of severe storms of late in the open Atlantic.

LATE NEWS FROM HILO TOWN.

Rain and Floods Come to Save Sugar Crop.

MANY TEACHERS GOING HOME.

Pele Retires to Temporary Quarters. Rev. Dr. Birnie Doing Same Vacation Work—German Kindergarten to be Opened—Sunday School upper Olua

HILO (Hawaii), Aug. 22.—The first severe storm of its kind that has visited this island for months was experienced on last Saturday night. Although the God of Thors did not hold forth many hours, the damage in Kau was considerable. In Hilo there was no damage done, but along the volcano road telephone lines were broken by falling trees, and instruments were burned out. In Kau seven inches of rain fell during the night and Sunday morning. Early Monday morning grinding was resumed at the mill. It was feared that the entire crop of sugar remaining would be a total loss on account of the long dry spell, as there was no water in the district available for grinding, but the downpour came in time to save Pahala.

It has been so dry that cattle died here for want of feed and water. In some places not a blade of grass was to be seen. At the Volcano House there was but a few inches of water in the tanks before the storm of Saturday night.

By the way, old Madame Pele has again calmed her temper and has not been seen to fire up for several days.

Tourists last week were gratified at seeing the lake quite active, and large parties went down to the brink almost every day. On Friday of last week the main floor of the crater for some distance around sank probably forty feet, and the fires of the lake disappeared, only to burst forth again the following morning; but after a few days' activity all grew dark again in the great pit.

A goodly number of ladies and gentlemen attended the dance last evening at Spreckels' Hall, given to aid in raising funds for the purchase of instruments for the Portuguese Band. This was the first of a series of dances to be given for the same purpose.

Rumor has it that J. M. Vivas, president of the Portuguese Union of Honolulu, intends giving up his business in the metropolis and locating in Hilo for the practice of law.

The first Sunday school session held in upper Olua convened at the home of Charles Trowbridge on Sunday, the 9th inst. Rev. C. W. Hill organized the classes and Mrs. Trowbridge, Mrs. Tuller and Mr. J. W. Morris were elected officers. About twenty-five were present.

While Rev. Mr. Hill has been recuperating in Olua, Rev. Birnie has been occupying the pulpit of the First Foreign Church.

Rev. Mr. Birnie will fill the pulpit of the Halle Church tomorrow morning, in the absence of Rev. Desha, who leaves on the Kinau this evening for Honolulu. He will return next week, after placing his children in school.

Mr. and Mrs. G. P. Wilder and party, of Honolulu who have been spending some time in Olua and at the Volcano House, are preparing to leave for Sam Parker's ranch at Mana.

Marshal Brown returned from the Volcano yesterday and will leave for the metropolis today.

Deputy Sheriff Lyman and wife are in Kona.

Prof. Koebel left for Olua yesterday. He expects to spend a month on Hawaii. He grew restless in Hilo on account of the lack of insect pests, for which he was searching, and left for Olua earlier than he expected.

F. S. Scott, a recent arrival from San Francisco in in town for the purpose of buying land in Olua. Mr. and Mrs. E. E. Richards and son were at the Volcano House last week. A son was born to the wife of H. C. Austin on the 15th inst.

W. S. Terry principal of the Hilo Boarding School returned from the coast last week. He went abroad to study late improvements in electrical machinery.

A pleasant party picnicked on Coconut Island on Friday at the invitation of Mr. and Mrs. L. Severance.

The ship Roderick Dhu Rock master, left port for San Francisco Friday morning. Her sugar cargo consisted of 38,650 bags. Mrs. S. L. Austin, Miss Perry Carter and E. J. Hanks took passage on the vessel.

Mr. and Mrs. W. W. Goodale of Papehau and Miss Kathryn Goodale, leave on the Kinau this evening, en route to the States.

Hilo is to have a German kindergarten under the management and instruction of Miss Clara H. Byer. A German young lady who is a graduate of Golden Gate Kindergarten Training School in San Francisco. For three years past she has been private teacher in the family of J. A. Scott, Waiuku.

The steamer Hawaii left Hilo on Wednesday with Mate Lane in charge. Captain Fitzgerald was seriously ill, and the Hawaii took on Captain Carey from off the Kinau Wednesday afternoon continuing on her way toward Honolulu.

THE WAY TO MAKE SCHOOL BOYS BEHAVE

Suggestions by Pupils and
Teachers at Summer School.

ABOUT GOVERNMENT SCHOOL.

Inspector Townsend and Cool Storage.
How Low Temperature May be Obtained—A Lesson From a Visit to the Hawaiian Electric Co.'s Works.

The invitation of the Methodist Church tomorrow evening was accepted by about fifty teachers. The organ recital under the management of Wray Taylor has been fixed for Monday evening. Monday itself will be given to general exercises, among others a consideration of the vertical system of penmanship, modeling, Herbert Spencer.

The morning session opened with an experiment to illustrate the principle upon which the cold is produced in the storage rooms. Mr. Townsend had an atomizer and a thermometer. The first experiment was blowing upon the bulb of the thermometer dry. No change of temperature resulted. Next, wet with water. The mercury went down two or three degrees. Next, when continuously wet with sulphuric ether. The temperature was then lowered from 80 deg. to 44 deg. Mr. Townsend said that with carbon bi-sulphide he had obtained in a similar way the temperature of 24 deg., and with ammonia still lower.

The subject of the first period was, as announced, school government. Mr. Townsend said that everything depends upon the spirit of the school. Is there harmony between teacher and pupils? The spirit of the teacher controls the school. He had thought of calling upon a lady to tell how she kept her school in such a lovely spirit. Asking a gentleman well acquainted with her and her work, the secret of her success, he was answered: "It is her own lovely Christian character."

"A determined purpose to help mankind never fails. In the smallest school the work of the teacher is a high and holy work. Consider your position and responsibility. Whom else have the pupils to give their noble ideals except you? Love should be the spirit of the school room, but that does not mean lax discipline."

He then asked a number of the teachers what they would do if placed in a school where the attitude of the pupils toward the teacher was one of hostility. "Our teachers do not need criticism," he said, "but help. Your very presence here proves that you desire to do the best you can for your pupils."

Mrs. Scott of Kona answered that the watchwords were tact, firmness and personal influence. Others said get them to work for the school. Get them to work for the teacher personally. What one works for he comes to love. If you do any one a great kindness you will always like them the better for it. Get the ring leaders interested. Interest them all in their work. Keep them busy. But let the busy work have another purpose besides keeping busy. It should be educational in itself.

In spite of all this there are occasions when punishment is necessary. In such cases let there be no feeling of resentment on the part of the teacher. Do not cherish your wrath.

Manners should also be considered in this connection. In this as so many other things, like teacher like pupil. Teach your pupils in kindness and thoughtfulness, cleanliness and neatness.

In the History of Education Herbert Spencer was the subject. Mr. Scott said: "On the peristyle of the building at Chicago Exposition were these words: 'Ye shall know the truth and the truth shall make you free.' This applies more to Herbert Spencer than any other man. He has done more to unify truth than any one who ever lived. And this has not been accidental either. Although a poor man he set out to do that very thing, and was able to accomplish it only by basing it in parts and getting subscriptions to the parts before printing them. The chief of his works are First Principles: The Principles of Biology, the Principles of Psychology, the Principles of Sociology, the Data of Ethics. In each of these he dropped the plummet deeper than the specialists in it. His education was merely a chip from his work shop. You will find it very interesting. You may agree with him; you may oppose him; but you cannot ignore him in any line of thought."

"His first care is to find what education is, and what its purpose is. He says that education is everything that one does for himself plus everything that is done for him. And that the purpose of education is to conduct to complete living." He then asks what branches should be taught and what order to fit a man for complete living in his relations to himself, to his neighbor, to his nation, to humanity. Were intellectual knowledge will not make a man. Here the bell for the next class interrupted Mr. Scott. Many of the class urged him to continue. Not wishing to interfere with the Tongue School has he closed his lecture, but the end is not to be lost. It will be finished Monday.

Dr. Lyons, evening lecture was upon the contour of the islands. A kind of map that it is well to pay attention to as well as the water map, and have spoken of is a map of the islands showing the lines of different elevations, and they do on the land, and the fact that this is very difficult, but the fact that of Hawaii it is easy, as the peaks of the islands are all of the same height.

The geologic formation of an island may also be explained on a map, and drawing the volcanic part, with a kind of lines, and made by water action

with another, etc. It is well too to have the pupils make cross sections of the islands and continents. This can be done by taking the heights and laying it out proportionally with the attitude a little greater or in case of a large continent a good deal greater than the length proportionally. It is better, however, to begin, at least, with the islands, and Hawaii is the easiest of these.

A contour drawn along the base of one of the Hawaii mountains not far from the shore will be full of "v" shaped valleys. On Oahu on the other hand has older and hence wider valleys. Hawaii has few streams, on account of the character of the material of a volcanic mountain when young. Plants, largely ferns, are already growing on the lava of 1881. That of 1853 is covered with brush-some trees. This comes at first from the moisture, oxygen and carbonic acid in the air, and after much faster from the vegetable acids. Thus the rock on top becomes soil.

Land is cut out more, much more by streams. This is because the water concentrates its action. A stream twice as fast will carry sixty-four times as much material. So a swift current carries much down the mountain side and leaves it on more level ground. But the rock is so porous on Hawaii that it absorbs a very high percentage of the rainfall.

The average altitude of Asia is about 2600 ft. of North America and Africa 2000, Europe 1000, Hawaii 3600, Maui 2600, Oahu and Kauai 1000. It is readily seen that the average altitudes here are greater here than in the continents. This is more especially true if we consider the proportion of the greatest height to the average height.

Another point of difference in the islands of Hawaii and Oahu is the cliffs by the sea in the former and the scarcity of cliffs in the latter case. This is partly due to the rise of Oahu from the sea thus taking the old sea cliffs inland.

Originally of course the islands had no ravines and no cliffs. To understand the history we must reconstruct and then discover how cut down from the original dome form. For this study relief maps are needed. I wish the survey office could finish the series they have, and the Department of Education could furnish copies to the schools.

For temporary modeling sand is perhaps the best substance. For permanent work I like plaster of Paris. A very good and cheap permanent substance is made by mixing flour 1-5 with whitening 4-5.

SCIATICA AND LUMBAGO.

A Woman Suffers for Several Months

Physicians Were Consulted, but Their Remedies did Little or no Good—A Permanent Cure Is Effected at Last.

From the Free Press, Corning, Iowa.

A severe attack of sciatic rheumatism and lumbago completely cured, sounds like a marvelous story to those acquainted with the excruciating pains which accompany such diseases, and the unsuccessful treatment they have tried, but that such a cure was really effected is witnessed by the following sworn statement of Mrs. Frank Houck of Hayes, Iowa:

"It was in the spring of 1893 that I was first afflicted with rheumatic pains in my left limb. I consulted physicians of recognized ability, who succeeded in relieving the pain for a time; but in a while the rheumatism returned in a more violent form than before. Again I sought the physician's aid, and in my endeavors to find relief I tried several of the most prominent physicians in various cities in this vicinity. Some of them succeeded in allaying the pain for a short period, but none gave me permanent relief, though I tried several."

"At last, in the spring of 1894, sciatic rheumatism and lumbago in its severest form set in and I was confined to my bed continually, although previous to this I had been very sick the major part of the time. All remedies prescribed did me little or no good. At last, at the solicitation of a friend, who saw an article about Dr. Williams' Pink Pills for Pale People in one of our county papers, I decided to try that remedy, as I thought it would surely do me no harm, even though it might not benefit me materially."

"I secured a half dozen boxes of Dr. Williams' Pink Pills direct, and by the time I had taken two boxes began to experience relief. I continued the use of this remedy as prescribed, and when the six boxes were gone I was fully convinced that they were doing me a great deal of good. I now consider myself entirely cured and firmly believe I owe the marvelous results to Dr. Williams' Pink Pills. A great many of my neighbors are now using this wonderful remedy for various ailments, and all are being greatly benefited by its use. I began taking Pink Pills in the spring of 1895, and the following August was entirely cured, so that I ceased taking them."

[Signed] MRS. FRANK HOUCK.
To confirm the story beyond all doubt Mrs. Houck made the following affidavit:

State of Iowa, County of Adams—ss.

Sworn to before me, a notary public, on the 15th day of March, 1896.

W. E. HELLEN, Notary Public.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood, and restore the shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of grippe, palpitation of the heart, and all forms of weakness either in male or female.

Pink Pills are put up in glass vials, both outside wrappers and vial bearing the full trade mark "Dr. Williams' Pink Pills for Pale People." They are sold by Hollister Drug Co., Chicago, Drug Co. and all dealers in medicine.

GRAND WELCOME TO PRESIDENT DOLE.

Waialuku and Makawao Turned
Out in Masse.

SEN. BALDWIN ACTED AS HOST.

Mr. Dole Addressed Hawaiians—Viewing Government Lands—Accompanied by Commissioner Brown and Major Potter—Summer Visitors.

MAUI, Aug. 22.—No social event in months has caused so much interest among all classes of people as the luau given by Hon. H. P. Baldwin in honor of President Dole during the afternoon of the 19th inst. It seemed as though Waialuku and Makawao districts were present en masse—Hawaiians, Americans, British, Portuguese, Royalists and Republicans—joined in making the occasion a memorable one. A special train conveyed Waialuku, Kahului and Spreckelsville people to Paia, and teams and carriages of all descriptions conveyed them from Paia to Haiku.

The scene of the al fresco banquet was a beautiful amphitheater shaded by tall mango and avocado pear trees, which were gracefully festooned with red, white and blue bunting. The ten long tables and the smaller ones here and there under the large Japanese umbrellas were attractively spread with all manner of dainty viands.

The residence was also finely decorated with bunting, and showed the legend, "Welcome to Our President," over the front entrance.

The President, assisted by Major Potter and Dr. Edward G. Beckwith, received in the parlors, Mr. Baldwin introducing the many strangers present.

Just before the luau Mr. Dole made a speech in the native language, dealing chiefly with the opening up of new lands. The forensic effort seemed to have made a popular hit among the Hawaiians.

After the feast, extempore addresses were made by Hon. J. W. Kalua, Rev. S. Kapu, John Kalua, Kahakaula, Hao Kawaimaka and others.

It is estimated that from 800 to 1,000 people enjoyed the feast.

During the 17th, President Dole, accompanied by Land Commissioner J. F. Brown, Major Potter and others, rode in carriages from Haiku to Haleakala Ranch, and there took horses and spent the day in viewing the growing corn of the Kula homesteaders. During Thursday, the 20th, Mr. Dole, in company with Messrs. Potter, Pogue, Aiken and others, started for Hana district. The first night was to be spent at Keanae and the second at Nahiku.

At the latter place the President is desirous of seeing some Government land which is said to be good for coffee.

Mrs. Lewers and Miss Anna Sorenson of Honolulu are the arrivals of the week at Mrs. Bailey's, Kaawapae.

C. W. Baldwin of Haiku is at the volcano.

Miss Nellie Bicknell of Kamehameha Preparatory is a guest at the Maunaloa Seminary.

Mr. and Mrs. C. C. Kennedy of Wailuku paid a flying visit to Mr. J. W. Colville of Paia during last week.

Misses Pullar and Steele returned to Hilo by last Kihau.

Mrs. S. E. Taylor and children are at Kaili.

During the 20th, Dr. Cooper of Honolulu, Mr. Grant (a San Francisco attorney), Dr. Raymond of Waialuku and several others visited the crater of Haleakala.

The August meeting of the Makawao Literary Society has been postponed until Friday evening, the 28th. President Dole, Commissioner Brown and others will attend. It will take place at Sunnyside, the residence of Dr. E. G. Beckwith.

During Saturday evening, the 14th, a fine rain wet down the slopes of East Maui.

Weather—During the week, delightful.

BOLD ROBBERY.

Palama Street Car Office Loses Its Strong Wooden Box.

Some time during Thursday night the office at the Palama terminus of the Hawaiian Tramcar line was robbed of something like \$400, contained in a strong wooden box with iron fastenings. This container of all the small change brought in by the street cars on Thursday, and other money, was carried away from the office to a point back of Kamehameha, about 250 yards from the stables, and there broken open. It was found at about 10 o'clock yesterday morning, and near by were the plain marks of the wheels of a brake.

Entrance to the office was effected through one of the windows. Although there were two watchmen on duty, the box was as neatly carried away as if no one at all had been near.

Detective Kaapa was put on the track, and although there are some pretty well founded suspicions as to the thief or thieves, no arrests had been made up to a late hour last night.

ARTESIAN WELL WATER.

Chemical Test Shows Small Amount of Vegetable Matter.

Professor Ingalls was engaged some months ago by the trustees of the Kamehameha Schools to analyze the water from the artesian well on the school premises. The water is pumped from the well 1,500 feet to the four tanks on

the top of the hill. Each tank holds 30,000 gallons. There are two other tanks also filled from the well, for the preparatory school.

The water in the tanks does not differ appreciably from that drawn directly from the well. The amount of organic matter, as indicated by the quantity of free and albuminoid ammonia, is exceedingly small. The character of the mineral constituents is of such nature as not to call in question the excellence of the water for culinary or drinking purposes. It cannot, however, be used for developing photograph plates, as the quantity of chlorine is high, and this would combine with the silver of the negative. The quantity of free carbon dioxide (carbonic acid gas) is also large and would act injuriously upon the negative.

The total (mineral) solids is 19.17 grains per gallon; of chlorine, 6.23. The albuminoid ammonia is .018 parts per million. The hardness (from carbonate of lime) is 6.8 degrees per gallon. In one gallon of the water the total 18.945 grains of solid matter is made up of: Silica, 2.72; alumina, .070; iron oxide, trace; sulphate of lime, .408; carbonate of lime, 2.020; carbonate of magnesia, 3.405; common salt, 10.322.

TAKE A RIDE.

Solution of the Puzzle that Bothered People.

Very Easy When You Know How It's Done—Twenty Incorrect Answers Received.

In the above will be found a diagram of the Advertiser puzzle showing how the lady at Makiki cut a carpet with a corner out of it to fit a room exactly square. Twenty-seven answers were received to the query, but only three were correct. Some of them were oblong, and one had a large hole in the center, which the person who submitted it forgot to fill up.

One received yesterday had two diagrams, each divided into three parts. Just how it was worked out or what was expected of it was not ascertained, as the puzzle editor was stricken with nervous exhaustion before finishing it. The diagrams are presumed to be answers to the puzzle, but they were so carefully folded that they were like Humpty Dumpty, once undone they could not be put together again.

The first correct answer was received from Idzui, a Japanese girl on Nuuanu street, and within a few minutes Commissioner Marsden sent his. He was spoken to last night regarding the solution. While feeling that the girl should have the car ride, he believes he is entitled to it, because he solved it and was on his way to the office with it when he met a colony of lady birds, which engaged his attention while the girl went under the wire. Mr. Marsden has been satisfied, however, and the day the electric car line starts he will handle the motor handle, while the winner of the prize sits on the inside.

The other correct answer was furnished by a Japanese boy. He was too late for the ticket. The correct answers were received before the Hobron Drug Company put their answers on the blackboard.

DEATH OF LEWIS J. LEVEY.

Expires from Pneumonia After a Short Illness.

Lewis J. Levey, the well known auctioneer, died at midnight Saturday from pneumonia, after a short illness, leaving a widow and six young children.

Mr. Levey was born in Manchester, England, September 19, 1838. When a young man he did considerable traveling, visiting India and engaging there in the theatrical business. Through his brother-in-law, A. Hoffnung, a wealthy merchant in London, he engaged as supercargo on an emigrant ship which left the Azores with Portuguese bound for this port, about fifteen years ago, and has resided here with the exception of a brief interval, since then.

He engaged in the auction business at the corner of Queen and Fort streets, remaining in business until after the revolution of 1895, when he went to Australia, with his family, remaining there until about three months ago. During his absence the business was managed by his brother, Samuel J. Levey, until he suddenly made up his mind to close it and go to China.

The deceased had had no occupation since his return, but he hoped soon to get into business again. His hopes for capital, however, were built mainly on a claim he had against the Government for arrest during the revolution.

He was a warm hearted man, a good friend and a devoted husband and father. He was a member of the Masonic fraternity, and one of the oldest of the craft in the islands, he remarked to a reporter for the Advertiser, but never affiliated with a lodge here.

The deceased was buried yesterday afternoon at three o'clock under the auspices of the Sons of St. George and Jewish Benevolent Society. H. H. Williams, directed the funeral and the remains were interred at Nuuanu cemetery.

Politician—"They tell me that the other party is spending money like water." Campaign Manager—"Yes, sir; they have that advantage over us, if it is an advantage. Why, sir, we have sent out a circular at a cost of \$100,000 to inform the voters of our party that the managers on the other side are using money in this campaign."—Boston Transcript.

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Dr. R. E. Roy, physician and pharmacist, of Olney, Mo., and as he has used the Remedy in his own family and sold it in his drug store for six years, he should certainly know. For sale by all druggists and dealers. Benson, Smith & Co., Agents for H. I.

RAIN GOD IN KAU DID SOME DAMAGE

Most Violent Storm Experienced
There in Years.

THE HALL'S ROUGH PASSAGE.

Made Punahoa by Gouging Time-Passengers Could Not Land—Mr. Searle Shoots at the Wrong Game—Dollaway Denies a Slander, Etc., Etc.

By the steamer W. G. Hall yesterday was received a letter from a resident of Kau, who gives a full account of the recent severe storm in that district. It is published in full below.

"The Rain God you gave us a story about in a recent number of the Advertiser has been getting in some very good work and it all came about in this peculiar way:

"As you are aware, we were having a very severe drought here in Kau, and things were in a desperate state when John Searle of Hilea, who was getting very short of water at the mill, took his wife and went up into the mountains for the purpose of shooting cattle (so he said). He fetched up in the vicinity of the Rain God, but the old uncanny witch who frequents the place was not present. Wishing to try his rifle before shooting at cattle, he drew several beads on the Rain God.

"Well, on Saturday night and Sunday morning, August 18th and 19th, Kau had one of the most severe storms of rain, lightning and thunder. It was something terrible. The lightning we had was the worst seen here even by the oldest inhabitant of the place. No one seemed to be safe, as it played all around our houses.

"Between Naalehu and Pahala seventeen poles were struck and seven were smashed to pieces, disabling the whole system and setting people to wonder when the end would come. Several of the instruments were likewise slightly injured.

"Joseph Pritchard deserves great credit for his promptness in getting to work on the repairing of the lines.

"You will be given some idea of the business like work of the storm when I tell you that at Naalehu three inches of rain fell in one hour, and at other places seven inches in six hours. There was simply just one blinding sheet of water for several hours, continuous in its downpour.

"Pahala and the other Kau plantations have been crying for water. Well, they've got it, but in a somewhat more violent form than they anticipated.

"The natives in the district say that Kaamau was angry at Mr. Searle for daring to fire upon her, and that he tried to wash him out. Reports give it out that he was nearly drowned at one time. It seems Kaamau had experience with the gentleman before.

"Some two years ago Mr. Searle knocked off a piece of Kaamau's head as he wanted to compare the rock with some others, having made a claim that the Rain God was composed of strange kind of lava. He came nearly paying dear for it, as Hilea was nearly washed out. Tons upon tons of rocks were washed through his beautiful garden, some of them weighing a tone alone. The natives told him at the time that Kaamau was seeking vengeance.

"The W. G. Hall experienced one of the worst storms she has ever had since starting on the Kona and Kau route. While coming up along the Kona coast delightful weather was met with. Captain Simerson was notified from Kau that it was very rough along this coast.

"As he approached South Point he saw no indications of a storm, and concluded there must have been some mistake about the telephone message. But he had no sooner rounded the Point than he struck some of the worst weather he has ever experienced. It came upon him so suddenly that he was sure he had been struck by a tidal wave.

"At 4 a. m. Sunday he was off Punahoa, but on account of the storm he was unable to distinguish the light, or even any part of the land. It was 7 o'clock before the Hall could distinguish land, and when it cleared up a bit she was off Punahoa. It was entirely too rough to land passengers, so they had to remain aboard until 12 m., when the sea subsided somewhat and they were able to get ashore.

"The passengers were not in the least alarmed, as they knew they were in the hands of an able captain.

"From the land people say that it looked very much as if the Hall had been struck by lightning once or twice. Early Sunday morning, before she had come to anchor in her usual place at Punahoa, Deputy Sheriff Yates was riding along from Honouliuli in the vicinity of Punahoa Church. All of a sudden there was a blinding flash of lightning along the lava, which shot out right toward the large buoy to which the Hall ties up.

"The roads were washed out badly. The Peter Lee road is in a very bad condition, and ought to be attended to at once.

"Some unscrupulous person has been circulating a report that Walter Dollaway charged \$1 for a bucket of water during the drought, and is now kicking because his business has been interfered with.

"For several days large volumes of steam have been seen issuing from Mokuaweoweo. This may be a forerunner of another outbreak. Some of the Kau people are hoping so, anyway."

Lucy Provided For.

In the Circuit Court yesterday morning Messrs. Magoon & Edings, attorneys for Lucy in the habeas corpus proceedings, upon being assured by the authorities that Lucy, the Chinese girl, would be released, asked leave of

the Court to discontinue further proceedings in the matter, which was allowed by the Court. As the case was one of charity, the Court remitted all but actual costs. Lucy was thereupon promptly released and was provided for by her attorneys.

AN OLD RESIDENT DEAD.

H. S. Tregloan Dies Sunday Afternoon at an Advanced Age.

H. S. Tregloan died at his residence on Beretania street at 4 o'clock yesterday afternoon from chronic stomach trouble and advanced age.

He was born in Cornwall, England, in 1822. He came to this country from the United States about seventeen years ago, and established himself in the tailoring business at the corner of Hotel and Fort streets, and continued until the time of his death.

He was a devout Christian, attending the Central Union Church up to the time the Methodist congregation was established here. He has been a trustee and active in the work of the latter church since its beginning here. He leaves a widow and two sons here and several children in the United States.

MOKUAWEOWE SAID TO BE SMOKING.

And Kilauea Keeps Sixteen
Fountains Going.

\$2,000,000 EXPORT OF SUGAR.

Hilo Business Booming—Sheriff's Horse Runs Away—Pleasant Severance Reunion—Jimmy Hayes Driving a Hack—Baseball Scores—Notes, Etc.

(Hilo Tribune, Aug. 15.)

There was a sociable meeting at the Severance home at Waiuanue street last Thursday night. Miss Helen Severance was the amiable hostess of the occasion.

There were a series of games of different kinds played. Professor Hepshaw received the first prize, the second being awarded to Miss Richardson. The "booby" prizes fell to the happy lot of Mrs. E. D. Baldwin and Dr. W. L. Moore. A piano duet by Mrs. Turner and Mrs. Baldwin greatly delighted those present. Mr. J. H. Boie gave some choice readings on various topics. There were solos rendered by Mr. Levi Lyman and Miss Willis. After this refreshments were served and Miss Severance's pleased guests, to the number of about thirty, departed for their homes.

Captain Rocks, of the Roderick Dhu, informs us that during his "on shore" at San Francisco the largest portion of his time is taken up in answering questions about Hilo, coffee, pineapples, prices of land, climate, etc. The genial captain is catching the fever himself and says he will, in all probability, purchase a piece of land and set out a coffee plantation just as soon as he can arrange it. We hope so.

Kilauea is still active and pretty much so at that. The latest news from the Volcano House states that yesterday sixteen fairly large fountains were playing at one time. There are quite a number of people up there. Among those to remain a week or more are Mr. G. P. Wilder and wife, D. H. Hitchcock, Jr., Miss Mazie Atkinson, Miss Zoe Atkinson, Miss Julia Perry, Miss Axiell, Mr. Rumsey, Misses Bond (2), Mrs. Renton, Mr. H. Deacon, wife and three children, Miss Dillon and Mr. Bruce Cartwright.

The Hilo baseball team has challenged the Olaa baseball club. No time has been set up for playing. The game will be played in Hilo and the return one will probably be in Olaa.

A dance was promised the victorious boys of the Hilo baseball team on the occasion of their beating the Hawaiian boys 38 to 28. They are anxiously waiting for the promised treat.

Mokuaweoweo is again reported active. Several city people have witnessed smoke on the summit of Mauna Loa.

The Volcano road was completed and the first carriage party arrived at the Volcano Hotel on October 21, 1892. Sheriff E. G. Hitchcock's carriage, while driven by the family servant on the Kilauea road, was badly broken up last Wednesday morning.

Jack Hayes, clown and all round man of the Wirth's and the Hawaiian circus, is now driving a hack for the Hilo Stables.

The cane season is nearly finished. Near \$2,000,000 worth of sugar has been exported from Hilo direct to Frisco since February 19, 1896.

We should so live and labor in our time that what came to us as seed may go to the next generation as blossom, and that what came to us as blossom may go to them as fruit. That is what we mean by progress.—Henry Ward Beecher.

A Remarkable Cure for Chronic Diarrhoea.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50-cent bottle, and now I can say that I am entirely cured. I cannot be thankful enough to you for this great remedy, and recommend it to all suffering veterans. If in doubt, write me. Yours gratefully, Henry Steinberger, Allentown, Pa. Sold by all druggists and dealers. Benson, Smith & Co., Agents for H. I.

WHAT FISH YOU MAY EAT AND ENJOY

Inspector Kelipio Furnishes a
List.

ABOUT FIFTY-ONE VARIETIES.

Suggestions From Minister Smith. Four Different Ways of Cooking. The Japanese Lead in Good Fish. Tastes of People Here Run to Mullet.

Honolulu has had something of a reputation for having good fish, but according to Hon. W. O. Smith the people do not know a quarter as much about that diet as they should. During a meeting of the Board of Health recently, while commenting upon the report of Inspector Kelipio, he remarked that the Japanese in Japan were far ahead of us in the matter of fish, so many different species of the fish he saw and ate there are generally ignored by foreigners here, the tastes of the people here running to mullet.

At the close of his remarks it was suggested by a member of the Board that the representatives of the newspapers secure a list of fish sold in the local market that are suited to the taste of the foreign population.

Inspector Kelipio has kindly furnished the following list to the Advertiser, showing the names of fifty-one fish and the way they may be cooked:

BOILED—Kumu, Weke, Nenu, Kala, Pauu, Uluu, Ulu, Paopao, Omilu, Oku, Kahola, Ulaula, Aku, Mahimahi, Ono, Aawa, Maikoiko, Malolo, Pualu, Palani, Amaama, Awakalamohu, Kawakawa, Ahi, Ula, Aloalo, Ulapapapa, Kuhonu, Moala, Opakapaka, Kapuupuu, Akule, Omaka.

BAKED—Kumu, Weke, Moi, Aweoweo, Uu, Pauu, Uluu, Moano, Paopao, Omilu, Hila, Uku, Kahola, Ulaula, Aku, Mahimahi, Ono, Malolo, Amaama, Awakalamohu, Aholohole, Kawakawa, Ahi, Opakapaka, Kapuupuu, Akule, Omaka.

LAWLUED—Kumu, Weke, Moi, Moano, Panuhunuu, Hila, Aawa, Moelu, Amaama, Opakapaka, Kapuupuu, Malamalama, Laenih.

KOALAE—Aweoweo, Uu, Upapalu, Pahuikui, Umaumolei, Pakalalaka, Kala, Maikoiko, Pualu, Amaama, Aholohole, Ula, Aloalo, Ulapapapa, Kuhonu, Moala, Akule, Mafu, Kole, Alaihi.

THE OLD GREEKS

Had an eye for the beautiful. The Greek word Kosmos, taken in one sense, means ornamental; while Kosmetikos translated means skilled in decoration; and Kosmeo means order. For this reason the name . . .

COSMEON WARE

... has been given to a line of pure Aluminum goods that we handle comprising,

Hair Brushes, Combs, Hand Mirrors, Trays for the Toilet Table, And innumerable small articles

usually made in silver at higher prices. The entire surface of these articles is unchangeable, and never tarnishes, even should it come in contact with water. The articles have the appearance of frosted silver, and are as light as a feather. All these qualities taken together give the ware that delicate grace that lovers of the beautiful admire so much. The engraved part is all hand work by skilled artisans. The filigree ornamentation, in point of style, is unique and classed with high art.

COSMEON WARE is just as wonderful as the aluminum it is made out of, and the world is never done talking of the wonderful qualities that valuable metal possesses. We have a large assortment on hand, tastefully laid out for inspection. Just the thing for presents to sweethearts and wives.

AGENTS FOR HAWAIIAN ISLANDS:

HOLLISTER DRUG COMPANY
Limited.

What Is PURIFINE?

It is the new disinfectant which has superseded all other disinfectants, being a scientific compound having no odor, yet possessing the qualities of a powerful disinfectant.

The automatic distributor should be placed in every house in Honolulu where odors and germs of disease exist. They are placed free of charge, taken care of and kept working day and night for \$1.00 per month. It's an innovation, but on scientific principles and appeals to everyone of common sense. The idea is this: The distributor drops two drops a minute, day and night. Foul odors are killed yet no disagreeable smell of carbolic acid or crude disinfectants takes its place. You don't know that a powerful disinfectant is being used if you judge by the lack of odor. But it's doing the duty—doing it well. Can we show you the "Automatic Distributor"? Our Mr. Washburn will call, if you'll take phone to

The undersigned, General Agents of the above two companies for the Hawaiian Islands, are prepared to insure Buildings, Furniture, Merchandise and Produce, Marine, etc., also Sugar and Rice Mills, and Vessels in the harbor, against loss of damage by fire on the most favorable terms.

H. HACKFELD & CO.

S. T. ALEXANDER H. P. BALDWIN

ALEXANDER & BALDWIN

TUESDAY AUGUST 25, 1896

So far as late dispatches give news of Candidate Bryan's trip from Nebraska to New York, the new leader of the Western States is leaving behind him a trail of forensic pyrotechnic display never before equalled in the annals of American politics. In previous campaigns the Presidential candidate has kept himself more or less in the background, being satisfied with comparatively few public speeches. One thing is noticeable in Mr. Bryan's public utterances, and that is his constant attempts to arouse the class feeling among his hearers. That he should shout for silver is to be expected, but in the majority of his remarks he appears to base his arguments on the principles that were brought into the Democratic platform by the Albigensian faction. There will be more of this

As the summer season will soon be drawing to a close and Honolulu residents will get together again to carry on the good work that is going on outside the usual business routine, we would suggest that some of the active and leading lights institute a "fence reform" in this city. Outside some of the shanties of Chinatown we know of nothing that mars the beauty of Honolulu more than the fences that stick up like sore thumbs in front of the private residences. There are high fences and low fences, iron fences and wooden fences, picket fences and picketless fences, painted fences and fences that haven't seen paint for years. In fact a fence collector would find Honolulu a perfect Paradise where he could go out three hundred and sixty-five days in the year and find each day a new variety. Now Honolulu has some beautiful residences and its driveways are likewise attractive and just why our private citizens should rob the public of the pleasure of viewing the attractive lawns and artistic taste displayed behind the fences—by many of the residents has never been set forth in public print to say the least. The newcomer in this city might well draw the conclusion that the town is so infested with wandering pigs, cows, horses and generic backward inhabitants that it is necessary to raise barriers about every house. But after a while it is just for a time he has it all wrong. The principal cause of the ugly fences is that the city fence law has never struck the town. They are kept there because they lay away from there and so it goes. If the Board of Health, or the Board of

In his remarks on foreign immigration the Commissioner sounds a warning note against the possible influx of Japanese. He first urges legislation that will "close the gates through which the flood tide of pauperism may find entrance. Whether this pauperism is European or Asiatic the effect is the same except that in the once case racial antipathy is added to the other evils. It is admitted that it is a difficult task to separate the deserving poor from the paupers. The Commissioner objects seriously, however, to the system of exclusion by which a man is judged by the amount of money he possesses. Had this system obtained the colony would have lost some of its

A good part of the gold for the purpose of resumption was procured by Chile, as it was by the United States on bonds sold in Europe. But there were two striking differences between

| Ocean

Some attribute the calamity to the falling of a great mass of earth from the sides into a great trough of the Pacific known as the "Tuscarora Hole," a great depression some 400 miles long and three and one-third to five miles deep, so called because discovered by Commodore (now Rear Admiral) John D. Belknap, of the United States marine corps, in 1874.—Chicago Inquirer.

SUMMER SCHOOL

CLOSES SESSION.

Yesterday Was the Last Regular School Day.

NOW FOR THE EXAMINATIONS.

Professor Dumas Tells of the Progress of Methods of Education—Professor Scott Concludes Lecture Course. Closing Address by the Inspector.

Summer School is "pau." The gatherings today, tomorrow and next day will be for examination merely. Many of the 207 teachers go home today. It is impossible yet to determine the full effect of the Summer School, but it is certain that something has been learned in method, and this, contrary to the expectation of many, rather by the good teachers than by the poor ones. The great value of the school, however, is the impetus it has given to thought in teaching and to professional study. Mr. Townsend, Dr. Dresslar and the corps of able teachers are to be congratulated upon the work done and the success attained. May the summer schools of the future ever do as much good as this one has done.

After the announcements and opening prayer, Prof. M. M. Scott continued his lecture on Herbert Spencer, the theme being "Education."

Spencer's ideas of education come directly from his general philosophy. All action is to be perfectly balanced to make the perfect man. The physical is the basis—"A sound mind in a sound body." The second qualification is the ability to make a living. Then he should be able to perform duties to family. Many men stop here. It is the fault of modern times, especially in the United States, to neglect social and political duties. Finally, he should appreciate the beautiful in conduct, nature, literature and art. Following these general ideas, Spencer says:

"The Englishman follows the same plan in dressing his child's mind that the savage does his body."

The savage ornaments his body before he clothes it. Our form of education, in the recent past at least, has been something similar.

The most striking thing in Spencer's "Education" is his theory of punishment. This is a system of natural consequences. If a girl has been promised an outing, looks forward to it with impatience, but is late when the time comes, do not scold, do not whip her—simply let her remain at home. If a child is disorderly, and the mother or nurse has to put away the things, when he wants them again tell him he cannot have them.

Mr. Townsend following, emphasized this last point. "If a boy persists in misbehaving on the playground let him have his recess at a separate time or place from the others."

Mr. Dumas spoke briefly of the normal class and of normal work in general. The first normal school was in France, 200 years ago; the first one in the United States was in Concord, Vt., in 1828. But it was not until 1839, when Horace Mann was the Secretary of Education, that any normal school in the United States taught any method. It was not till Oswego was started in 1861 that there was any training in teaching, i. e., practical teaching under the eye of the critic teacher. The fourth stage in professional teaching is now in operation in most of our normal schools—child study, the testing of children's capabilities and observation of children. There is still a step to take—a fifth stage to pass through—that is the training of teachers for the higher grades. This must, however, come. There is psychology in the work of the advanced teacher as well as of the primary teacher. This has already begun. Clark University, the Teacher's College, the New York University School of Pedagogy, the Buffalo School of Pedagogy, all are training teachers for this work. And Harvard, Columbia, Michigan, California and Leland Stanford universities, to mention a few, have regular pedagogic courses.

All this has not been without opposition—witness Mann and the thirty-one teachers. As in that case, so in most, the opposition has come from teachers.

As to our own work, while we have not the apparatus nor the corps of instructors of the schools in the States, we can get nearer to our conditions, to the work to be done.

After a short recess Mr. Woodward of Kamehameha Normal spoke a few fitting words.

"The idea of professional training is young. But yesterday dentistry had no school. Day before yesterday medicine was learned in a doctor's office. Even now law is often learned in a similar way."

"We must study to get the method and spirit of great minds. This inspiration will help us to become original thinkers ourselves."

Mr. Dickinson of Lahaina explained to the teachers the way to make paper mache for modeling.

Mr. King told of the adoption of vertical penmanship at Oswego, and gave direction for position, form of letters, etc.

Mr. Townsend then closed the Summer School in a short speech. He thanked the teachers for the interest, earnestness and purpose in their work which their presence here, many at considerable expense, showed. He especially thanked those self-denying teachers who came to help conduct the school. He had had to appeal to the public spirit of the teaching force for teachers for the Summer School, for no pay was possible, not even expenses, and he had not appealed in vain.

He then spoke briefly of literature

and nature study in the schools, saying that a supplementary course would probably be issued. In the latter pupils must learn to express as well as to observe. On language he warned the teachers to guard their own expressions. "If you have bad habits of speech it is your duty to correct them." Oversight of play ground was urged, for the morals and for the English.

"To get the best of the Summer School it should be followed by study at home. You have your school work. You will need probably not less than an hour to prepare for that work; for you should always have a definite idea of what you mean to do in class. Besides this, you ought to study your profession at least half an hour each day. If you have the strength to study more, let it be something broadening, like a course in history or literature—a Chautauqua course, for instance."

He then gave a list of books specially fitted to the needs of island teachers, and the Summer School was over.

In the afternoon the National Teachers' Association met. President M. M. Scott in the chair. N. E. Lemon of Spreckelsville was chosen secretary, the regular secretary being absent. The constitution was amended somewhat and the following officers elected for the coming year:

President—J. L. Dumas.
Secretary—Osmer Abbott.
Vice Presidents—For Oahu, J. F. Scott; for Maui, J. A. Moore; for Hawaii, Mrs. M. F. Scott; for Kauai, Mr. Wells.

Executive Committee—J. L. Dumas and Osmer Abbott, members ex-officio; Miss Laura Duncan, Mrs. H. S. Townsend, H. Z. Austin.

The executive committee will meet in the High School building this morning at 8 o'clock to prepare a course of study.

BEATEN AGAIN.

The Sharpshooters Again Win From Company B.

The Soldier Boys do Better than Last Time—Beaten by 38 Points. Sharpshooters Crippled.

The Sharpshooters made the second appearance before the Company B men at the Kakaako range on Saturday afternoon and succeeded in winning the twenty-man team match of best two out of three. It will be remembered that on Saturday, August 15th, the Sharpshooters won over the Company B team by a score of 822 to 737, or 85 points ahead. Saturday's score stood 825 to 787 in favor of the Sharpshooters. Following is a list of the men of each team with their scores in the Saturday match:

Chadfield	40
Fraser	42
Total	787

The Sharpshooters had an accident which crippled their average and gave great disappointment to Dr. Emerson who, after making a 4 on the first shot, had the shell ejecting of his rifle broken. He was forced to exchange guns and, being allowed no sight shots followed his first shot by a 2 and a 3.

Sergeant Elvin was allowed to shoot in the Company B team although no longer a member. Tracy was captain in the place formerly occupied by Elvin.

On Board the Adams.

The members of the Elsie Adair Company were entertained on the Adams last night. Songs were rendered by the theatrical company as well as by men on the vessel. At the termination of the concert the party was taken to the Healan Boat House in the steam launch.

Coreans Gone.

Kim Far Ting and Kim Sing Ting, the two Korean merchants who have been spending a couple of months in the city and who will be remembered well by the dimly purplish garments they wore around the streets, left for Victoria on the Miowera yesterday afternoon. These two Korean brothers left their home several months ago on account of the constant fighting there and will remain away until things are in a more settled condition. They have been on a tour of the world once before and are doing the same thing again.

LORD SALISBURY

SAVED A BLUNDER.

Discretion Used in Dealing With Cretan Affair.

MODEL TOWN FOR GREAT BRITAIN

Penneyer Gives Characteristic Answer to Insurance Men—New Hampshire Mills Shut Down—Canada Dealing With Chain Jumpers, Etc.

LONDON, August 8.—Intense interest is being manifested in Europe over the developments of the insurrection in Crete, where general fighting is expected at any moment. The Marquis of Salisbury was denounced for breaking away from the European scheme to blockade the island. Now foreign opinion seems to be changing and even the French press admits that the British Premier stopped Europe from committing a gross mistake and stifling the legitimate struggle for Cretan liberty. In England the whole country sides with the Marquis of Salisbury and would willingly see Crete detached from the Turkish empire.

Telegrams received here today declare that Haraklion, which is filled with Mohammedan refugees, only needs a spark in order to set a general massacre going, although the presence of the British and French war ships in the harbor is apparently having a salutary effect. But Turkey is certainly in a very bad way just now, for in addition to the insurrection in Crete there is a sort of revolution aided by the Greeks and Bulgarians proceeding in Macedonia, where the Turkish troops have been repeatedly repulsed and the Druses' uprising is engaging the attention of the Turkish Government in another direction.

Under the circumstances it is not astonishing that there are people who really believe that the dismemberment of the Turkish empire is again contemplated, and that Great Britain may now be willing to see this take place, even if it is only in order to set her continental enemies fighting over the spoil.

MIND YOUR OWN BUSINESS.

Mayor Penneyer Replies Sharply to Insurance Men.

PORTLAND, Ore., Aug. 8.—Several days ago representatives of various fire insurance companies doing business in Portland addressed a letter to Mayor Penneyer and the Board of Fire Commissioners, protesting against any more removals in the fire department except for good and sufficient cause. The Mayor answered the communication in the following language:

"In regard to the communication of the insurance men to myself and the Board of Fire Commissioners, speaking for myself, I will say that I can attend to my business without their interference, and they may attend to their business without my aid or advice."

"I want to say that in removing Fire Commissioner Wessinger, a man opposing the party that elected me, I have followed the uniform precedent of the country; and at this time, when the issue is fairly between a British and an American financial policy, I don't propose to appoint anyone supporting the British system."

TROUBLE IN CANADA.

Police to Suppress Disturbances Due to Chain Jumping.

CHICAGO, Aug. 8.—A special from Winnipeg, Manitoba, says: There is serious trouble at Prince Albert, Northwest Territory, caused by land jumpers. Fifty armed settlers proceeded to the house of Louis Como, a land jumper, and tore it down, throwing both house and furniture into the lake. Inspector Syden took a small detachment of mounted police from Edmonton to quell the disturbance, but last evening he wired to Saskatchewan that the full detachment of police stationed there be dispatched to the scene. A serious fight is anticipated, and the result will be to stop chain jumping, which has aroused such indignation in the Canadian Northwest.

MRS. HICKS-LORD'S BURIAL.

Not More Than Fifty People Followed to Grave.

NEW YORK, Aug. 8.—Not more than fifty people all told, including relatives, friends and servants, were present at the funeral services over the body of the late Mrs. Hicks-Lord today, in the mansion at 22 Washington Square west. The funeral service consisted of prayers for the dead. It did not take more than five minutes, after which the undertaker and his assistants carried the black covered casket down the steps, and three carriages containing the immediate relatives and one occupied by the colored butler started immediately for the Grand Central depot. There they took the train for Fishkill Landing, where the interment will take place.

IN HONOR OF VICTORIA.

English Talk of a Wild Scheme for a Model Town.

LONDON, Aug. 8.—The big gooseberry season in England always brings to the front a hot discussion upon some subject that it pleases the Daily Telegraph to start. This year the subject chosen is "How to Celebrate the Queen's Reign, the Longest in English History." A wealthy soap manufacturer set the ball rolling by proposing that \$25,000, 000 should be raised to found a model settlement to be called Victoriatown. Columns are now pouring out in the

kingdom's newspapers in discussion, wherein all the writers agree that the idea is an excellent one, but no two writers can agree as to what constitutes a model town, the fiercest controversies gathering around the two items of theaters and drinking saloons.

On the question of drinking the line is sharply drawn. In the matter of theaters one division insists that a model theater should exclude all tragedies, problem plays and the like, and be strictly limited to comedy, farces and light opera. Nothing with an unhappy ending is to be allowed in the model town, nor are street bands that cannot play harmoniously to be admitted. And later on the question of secular and religious education, rates, taxes, trades unionism, socialism and anarchy will overtake the correspondents and help to pile stones on the already dead suggestion.

THOUSANDS OUT OF WORK.

Two Big New Hampshire Mills Shut Down.

MANCHESTER, N. H., Aug. 8.—The announcement has been made that the Stark Corporation would close down its mills from August 15th until September 7th. This will throw 1650 persons out of employment. The Amoskeag mills closed tonight for an indefinite period. This corporation ordinarily employs 8000 hands, but has been running with about two-thirds of its total number of late.

Lord Russell to Visit America.

LONDON, Aug. 8.—Lord Russell goes at once to the United States, now that the long vacation has begun, and he will doubtless express himself there in private on the Maybrick case, in which he still takes considerable interest.

BIG SUGAR BEET DEAL.

Chino Ranch Passes Into Hands of English Syndicate.

Capital Stock of Two and One-half Millions—Present Earnings of Ranch.

SAN FRANCISCO, Aug. 9.—Articles of incorporation of more than ordinary interest were filed in the County Clerk's office yesterday, giving legal existence to a company with a capital of \$2,500,000.

The new corporation is called the California Beet Sugar Estate and Land Company (Limited), and, as the unwieldy name would indicate, it is an English affair. The capital stock of \$2,500,000 is divided into 100,000 shares at \$25 each, and the incorporators and their holdings are as follows: John Farquhar Gilmore, 39,400; Vincent Neale, 100; Henry Francis, 100; Wendell Easton, 100; George Easton, 100; V. D. Duboce, 100; A. H. Quatman, 100.

The formation of this company marks the closing of the Chino ranch deal by an English syndicate, in which a half-dozen wealthy Londoners become the owners of 40,000 acres of sugar beet land, comprising the Chino ranch of Richard Girard, for the sum of \$1,600,000. Of this amount \$102,000 was paid in March last and \$338,000 will be handed over within the next few days upon the delivery of the title deeds, now held in escrow by the Anglo-California Bank.

Easton & Eldridge are made the general managers of the concern under a five years' contract. Since September last they have sold over \$300,000 worth of the property at from \$125 to \$225 an acre, realizing thereby an average profit to the English syndicate of about \$100 an acre. Wendell Easton said last evening: "This is a tremendous money-making proposition. In five years we can make out of this property at least \$4,000,000. In eighteen months the syndicate will have gotten its money back and will have left as clear profit a princely sum. Why, the ranch is earning, under present conditions, upward of \$100,000 a year. The company's debentures will pay 6 per cent and leave a surplus of 15 per cent per annum."

SHARK FISHING PARTY.

F. W. Hobron and a Party of Friends Fish in Pearl Harbor.

T. W. Hobron took the yacht Hawaii and a party consisting of John Egan, Jesse Young and Fred Potter to Pearl Harbor on Saturday afternoon. The run down was made in a little over an hour. After sailing around the harbor for some time the yacht was anchored about a mile from the landing and lines set for sharks.

They had numerous bites, and at one time they got four big fellows to the surface of the water and then lost them. One bit the chain in two and another straightened out a big hook and left for deeper water. At 2 o'clock they landed a big fellow after much difficulty, it requiring three shots from Gunner Egan's rifle before being subdued. He was made fast from the stern of the yacht and afterwards towed to the landing. With the aid of a horse he was hauled up on the land and measurements taken by a disinterested party. Its length was exactly twelve feet; circumference at the largest part, five feet; space between jaws in an ordinary yawn, thirteen inches; when in full action, twenty-four inches. A peculiarity of this man-eater was that the upper fluke on its tail had been bitten or cut off some time during its career. If any shark hunter remembers cutting off the tail of a shark as a joke during the past ten years, he will be glad to know that a gentleman at the Peninsula engaged in hog raising cut off the rest of the shark's tail shortly before noon yesterday.

A post mortem on the shark disclosed the fact that she was cleanly and a temperance advocate. Her stomach contained an empty sassafras sour bottle, a full box of Hobron's curative soap and a solution of the Advertiser's carpet cutting puzzle. It is supposed these

Awarded Highest Honors—World's Fair. Gold Medal, Midwinter Fair.

DR. PRICE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder 40 Years the Standard. LEWIS & CO., Agents, Honolulu, H. I.

articles were lost overboard from the yacht while she was lying at anchor.

At Pearl Harbor Mr. Eakin of the Hobron Drug Company joined the party and came to town on the yacht. The voyage home was made in two hours and twenty minutes from the boat landing in the harbor to the fish market wharf.

Stars	714
1st Regt	666
Kams	333
Hon	295

On the whole, Saturday's game was a good one, but at certain stages the errors were inexcusable and showed a rattle-box somewhere. The runs by the Stars were due largely to these errors on the part of the Honolulu, who played very much as if they had been on the field just once or twice. However, the Stars were by no means lacking in errors, those by Lishman being especially prominent.

At some parts of the game the playing was scientific, while at others it was very much off.

Ernest Wodehouse's three-bagger and a home run by Chris Willi were features of the game.

If there had been another inning played it is probable the Honolulu would have won. Following is the score by innings:

	1	2	3	4	5	6	7	8	9
Honolulu	4	0	2	0	2	2	4	0	—16
Stars	1	2	4	1	1	0	8	1	2—20

KAUMAKAPILI CONCERT.

Complimentary to the Teachers of the Summer School.

Kaumakapili Church was well filled last night with teachers and their friends, the event being a complimentary concert by Wray Taylor to the teachers in the Summer School. Every number was enjoyed by those present, and Mr. Taylor received many thanks and congratulations for his kindness and the success of the evening, which was arranged particularly to hear the Kaumakapili organ.

Following was the program rendered: Festal March by Therese Pastoral in C Major by Wely Wray Taylor.

Song—Open Thy Lattice by Gregh Mr. J. Q. Wood.

Andante Pastorale by Marchant Miss Esther Kuaea.

Trio in C Major by Hullwell Organ, Miss von Holt; Violin, B. L. Marx; Cello, Wray Taylor.

Andante in F by Batiste Gavotte—Summer School. Wray Taylor.

Solo—Big Ben by Pontet Mr. J. B. Alexander.

Concert Fantasia by Arranged Wray Taylor.

Auld Lang Syne.

The gavotte entitled the "Summer School," and played on the organ by Wray Taylor is a composition by that gentleman, dedicated to the teachers of the Summer School. Its catchy make-up caught the audience at once.

Miss Esther Kuaea was particularly good in her "Andante Pastorale" on the organ. The young lady is a pupil of Wray Taylor, who has been teaching her to play the hymns for the church. She is a Hawaiian of great promise in the musical line, as has already been shown by her progress.

"Open Thy Lattice" was well sung by J. Q. Wood, and "Big Ben" by J. B. Alexander was very much enjoyed, especially when the singer took the lower notes.

MIOWERA ON TIME.

Makes a Record Trip From Sydney to Honolulu.

The C. A. S. Miowera, Chas. W. Hay commander, arrived in port at 7:30 a. m. yesterday morning, 13½ days from Sydney, this being the fastest trip of the steamer from that port just before leaving Sydney the Miowera was thoroughly overhauled in both saloon and cabins and the engines were put in the best of condition.

accepted the management of a large wool business in Sydney (Messrs. Flood & Co., Ltd.), although he was very both to sever his connection with the company the terms offered left him no option but to accept.

The Miowera left Sydney Heads at 4 p. m. on August 10th, arrived in Suva at 8 a. m. August 16th, left the same date at 2 p. m. and took the pilot aboard at 7 a. m. August 24th, arriving as above. The weather was fine throughout the trip with the exception of the last three days when strong, N. E. trades and a head sea somewhat reduced speed.

The Miowera has started out on a new record and hereafter passengers need have no fear as to that steamer's being behind time.

A Cook Book Free.

"Table and Kitchen" is the title of a new cook book published by the Price Baking Powder Company, Chicago. Just at this time it will be sent free if you send a postal mentioning the P. C. Advertiser or Hawaiian Gazette. This book has been tried by ourselves, and is one of the very best of its kind. Besides containing over 400 receipts of all kinds of pastry and home cookery, there are many hints for the table and kitchen, showing how to set a table, how to enter the dining room, etc.; a hundred and one hints in every branch of the culinary art. Cookery of the very finest and richest, as well as of the most economical and home like, is provided for. Remember "Table and Kitchen" will be sent, postage prepaid, to any lady sending her address (name, town and State) plainly given. A copy in German or Scandinavian will be sent if desired. Postal card is as good as letter. Address Price Baking Powder Co., Chicago Ill.

They Want Band Concerts. Another occasion has presented itself to the liberal minded citizens of Hilo for believing that our town is being unjustly discriminated against. We have reference to the matter of Sunday band concerts on Cocoanut Island. The Tribune of today editorially denounces the decision of the Executive Council of Honolulu as containing "inane excuses" as to why Hilo should not be allowed to have such concerts. The greatest objection seems to be that Honolulu officials have fear of Hilo becoming demoralized because of the lack of ability of Hiloites or the band directors to control the programs to be carried out on the Sabbath.

There are many people of all classes who recreate on the beach or on Cocoanut Island Sundays, who would be uplifted by having a little music instilled into them, rather than becoming manifestly degraded. Hilo citizens protest, and the band will play on the island tomorrow, notwithstanding the fact that the band boys have been threatened with arrest if they play. HILO, Aug. 22, 1896.

Larsen Hurt.

Wm. Larsen had a very narrow escape from being badly injured on the King street bridge yesterday morning. He was going out to Kapalama on his wheel at a good rate of speed and a Chinaman was coming in on horseback at a gallop. On one side of the street was a wagon and on the other a car, so that there wasn't enough room for the bicycle and the horse to pass and the consequence was that there was a collision. Larsen was thrown to the ground and badly bruised and his wheel—well the repair shop will be its resting place for a week or so.

Tired Feeling is exceedingly common and dangerously significant. It is a warning which must be heeded, or, as with the express which fails to regard the danger signal, disaster must follow. It is a sure indication of thin, weak, impure blood. It is certain admonition that the blood is not properly feeding the nerves, tissues and organs of the body. Weak, nervous,

That Tired Feeling

men and women are found everywhere. Men strive too hard to "keep their business up," women work too much "on their nerves," all have too little sleep, there is excessive drain on strength and nervous energy, and all complain of that tired

Feeling

By purifying and vitalizing the blood, Hood's Sarsaparilla furnishes abundant supply of nourishment for every nerve, organ and tissue of the body. This fresh supply of nerve strength overcomes nervousness; the new vigor in the blood soon banishes that tired feeling; the tone given the stomach creates an appetite, cures indigestion and dyspepsia. Take

Hood's Sarsaparilla

The best—in fact the One True Blood Purifier. Hood's Pills are the best after-dinner pills, aid digestion. 25c.

RUBBER STAMPS

AT GAZETTE OFFICE.

Room 12, Spreckels' Block, Honolulu, H. I.

Have you ever made a study of signatures? I do not mean merely the names which you should scrutinize with the detective eyebrows of a cashier, but the whole ending of a letter, which you should look at as a genial tourist would inspect epitaphs or historical relics. Have you ever done that, I say? It's quite worth while, I assure you. At first you would observe the curt extreme of business, indicating little time or desire for more than Yours, or Yours Truly, or, in important letters, Yours Respectfully. These expressions merely serve as buffers between the letter and the name, which would otherwise come suddenly upon the reader with a considerable shock.

Between this extreme and the gushing adjectives and adverbs of young ladies in their intimate correspondence there is a long and delicately shaded list of expressions. Each of these phrases comes up to be used as fitness demands it. A fitting signature is a bit of self-satisfaction—it is a delicate compliment to our peculiar temperament or condition, and the whole letter leaves with you a delightful impression if the ending is personal and characteristic. Some people never take the trouble to break to us gently the news of the approaching end of a letter. The end is abruptly proclaimed when we get there by a meaningless Yours Truly, that might be applied to anybody and everybody.

For the benefit of over-consciousness souls who fear to betray undue warmth in their closing remarks, let me say that the easy-going Yours Sincerely is good, but implies some need of propping up your genuineness. Yours Cordially is somewhat patronizing. Yours Lovingly presupposes intimacy and affection, but Yours Affectionately is quite safe; it merely indicates the disposition of the writer, not her feeling for the recipient of the letter. I once had a letter from Florence Oakum, who, in her desire not to mislead me by professions of friendship she did not feel, wrote somewhat vaguely, "I am ever Florence Oakum." I have often wondered what a cynic might say if she were to become Mrs. Beecham.

Above all my other dislikes is my aversion for the man or woman who subscribes himself thus: "I am, Sir, yours, etc." What more insulting, condescending, irritating, insinuating expression can you imagine? Yours, etc.! It implies that the writer cannot take the trouble to select a fitting word to end his sheet. It breathes to me of scorn and snobishness and hostility. Yours, etc.! It is exasperating. I sometimes see a certain English journal that contains much excellent matter, but I am irritated beyond measure by the whole paper simply because of the flippant signatures, which read, every last one of them, "I am, Sir, yours, etc." For my part, I assure you that my name shall never darken the subscription list of a journal that is such a continual nerve-irritant.

A real letter is a wider revelation of human life, it seems to me, than even acquaintance, unless it be intimate. The writer of real letters dashes off what he feels at the moment, with no attempt at fine writing or close thinking, and the feeling is likely to be more genuine than in finished prose. What a group of letter writers the world has for us—Madame de Sevigne, Scott, Byron, Shelley, Macaulay, Mrs. Carlyle, Matthew Arnold and Fitzgerald may be put at the head of the list. What charming glimpses we have of Thackeray in his letters, and of Phillips Brooks in his correspondence. A simplicity prevails in all of these letters that refreshes us, a directness that we sometimes miss in more ambitious writing, and an ephemeral quality that suggests the odor of dried rose-leaves.

A WEEK IN SOCIETY.

One of the most delightful society events of the summer was the reception and dance given at the home of Dr. and Mrs. McGrew, Hotel street, Wednesday night, a farewell to the Misses Carroll and Miss McGrew who will return to San Francisco on the Gaelic of August 28th.

The large hall was the center of attraction, decorated artistically as it was with bunches of red flowers and pots of palms and ferns with here and there a Japanese lantern to add to the effect. This charming spot together with the dining room was used for dancing to the music of the Hawaiian club stationed on a temporary platform near by.

Comfortable chairs were set on the spacious verandas and the lawn for the accommodation of the guests.

Supper was served at a late hour and this done dancing was kept up for a little while longer when the guests departed for home all in a happy frame of mind over the delightful event.

Among those present were American Minister and Mrs. Willis, Mrs. Carroll and the Misses Carroll of San Francisco, Mr. and Mrs. Wm. G. Irwin, Dr. and Mrs. Meyer, Mr. and Mrs. N. P. Harris, Mr. and Mrs. F. H. Brown, Mr. and Mrs. Holmes, Mr. and Mrs. Porter, Mr. and Mrs. James Spencer, Mr.

boiled rice pressed into egg cups and turned out after a couple of hours or longer they would not eat per se but served with strawberry sauce, or with raspberries poured around each and with whipped cream it is a much esteemed dessert. A rice charlotte is another idealized dish of the cereal that insures it a warm reception. This is made with two tablespoonfuls of rice boiled in a quart of milk in a double boiler, the whites of three eggs added after it is taken from the stove, the mixture then poured in a mold that has been lined with lady fingers. It is sweetened and flavored to taste or served with sweetened and flavored cream.

"In my twenty years experience as a housekeeper," finished the speaker, "I have found that a family has to be managed, and if a little pains be taken they can be managed without their suspicions being aroused. I have discovered, too, that things of which my family are not very fond they will eat at luncheon, which seems to be their hungeriest meal—a note I pass on for the benefit of other housekeepers."

MOTHER HUBBARD TO DATE.

The Chicago Daily Tribune thus revises Mother Goose's Nursery Rhymes up to date:

Tom, Tom, the piper's son,
He stole a wheel, and away he run,
But a copper fleet
Young Tom could beat,
And they locked him up in Harrison Street.

Jack Spratt's
Trousers would flap.
His wife, she made her's tight,
And so between the two, you see,
They kept the average right.

Peter, Peter, pumpkin eater,
Had a wife, and couldn't keep her,
Took an ax and smashed her bike,
So she had to stay at home at night.

Hey-diddle-diddle,
The bicycle riddle,
The strangest part of the deal;
Just keep your accounts,
And add the amounts;
The "sundries" cost more than a wheel.

Little Tommy Titmouse
Worked for a cycling house,
Went to his meals
On other men's wheels.

There is a man in our town
As wise as were our sires;
He ran across a piece of glass,
And punctured both his tires;
And when he saw the air was out,
With all his might and main,
He took his little nickel pump,
And pushed it in again.

Ding-dong bell,
There's the man who fell.
Who knocked him down?
The meanest man in town.
Who called the "cop"?
A man who saw him drop.
What a wicked man was that,
To try to kill the cyclist fat,
Who never did him any wrong,
But kept a-peddaling right along.

The Grecian waist is coming, according to an authority, which is good news for every woman. Parisian dressmakers are already measuring the inches around the Venus of Milo, the Pallas and Diana, and sternly forbidding their customers to adopt any sash or corselet band one inch wider than those Hellenic dames would have approved. All of these point to the hope that the reign of the flat chest, red nose and pained expression of countenance is nearly over.

To remove grease spots from woolen dresses, wet the spots with benzole or turpentine, and put a piece of blotting paper under the spot and another over it; press with a warm iron; first wet a circle just outside the grease spot with the benzole, and continue wetting, moving toward the grease until that is reached. Never start by wetting from the center of the grease spot, nor cover the spot with powdered French chalk.

If ink must be spilled on tablecloths or any white goods, do it in the tomato season, for the acid juices of this fruit vegetable promptly removes all such stains from cloth, as well as from the hands.

TO CURE HICCOUGH.

In the last year a number of cases of prolonged and frequently fatal hiccoughs have been reported in the newspapers. Frequently without any warning persons of good health have started to hiccough, and have kept it up for weeks without cessation until the exhaustion proved fatal. The physicians in charge have tried many things as remedies, but as a rule have failed to accomplish anything toward controlling the disease, says the New York Journal.

Professor Lepine, of Lyons, France, has at last discovered a cure. A young soldier had contracted the disease and was rapidly losing strength. The new remedy consisted in pulling the tongue several times a minute, keeping it outside the mouth and then letting it slip back again. This faithfully kept up produced a cure inside of twenty minutes.

Hiccough, when continued is a serious disease of the respiratory center in the brain. These rhythmic tractions on the tongue seem to affect the respiratory center in a peculiar way. There is a bunch of nerves at the base of the tongue which communicate directly with the nerve centers in the brain. When the brain center is inactive it may be stimulated by pulling the tongue. It is inactive in cases of suffocation.

If a baby does not breathe properly when born, if the tongue is systematically pulled a few moments the baby will begin to breathe. It is an old remedy. Pulling the tongue also helps in treating the throat. In cases of hiccough it has been discovered that pulling on the tongue ten or fifteen times a minute acts as a more certain and powerful stimulant than any of the old methods. It has been found that a good hook or pumping air into the lungs, or blowing into the lungs, Chicago News.

NEW MEMBERSHIP ADDED INTERESTING PAPERS.

The Hawaiian Mission Children's Society met at the home of C. H. Kiege, on Saturday evening but owing to the inclement weather there was a rather slim attendance.

The following people were made eligible to membership in the society: Wirth O. Allen, Mrs. E. G. Taylor, Mrs. James T. Taylor, Mrs. O. P. Emerson, Mrs. Cassil and R. Terry.

Most interesting notes on the flora of the Hawaiian Islands taken from scattered members of the society, asking for communications from each member so as to get replies in the nature of a roll call for the present year, was approved. The record shows 916 living members.

The action of the corresponding secretary in sending communications to a lecture delivered at Ann Arbor, were presented by Dr. A. B. Lyons. In this the flora of the islands is divided into distinct groups of indigenous and foreign plants. The foreign groups are again subdivided into those remaining in the same state in which they arrived in the country and those different varieties which have sprung therefrom. The flora is further divided with respect to altitudes, the first comprising all those from the beach to the lower forests, the second all those from the lower to the upper forests and last, from the lower forests to the cloud region, many of the names of plants in the various regions were read by Dr. Lyons.

The points set forth are of great importance to students of botany and especially to teachers.

Dr. Lyons read for Mrs. Frear some interesting papers, one on "Star Life," in which were set forth the thoughts of a young person gazing at the stars, another entitled the "Poet's Lesson," being the answer to a prayer from a poet that the Muse of Poetry teach him what to sing and the last being two stanzas entitled "Symbols," the result of the answer.

Mrs. Cowan read a communication under date of April 30th, received from Rev. W. H. Gulick of Spain, which will appear in full in a later issue of this paper.

Metropolitan Market KING STREET.

Choicest Meats From Finest Herds.

G. J. WALLER, Proprietor.

Families and Shipping Supplies ON SHORT NOTICE

Lowest Market Prices

All Meats delivered from this market are thoroughly chilled immediately after killing, by means of a Bell-Coleman Patent Dry Air Refrigerator. Meats so treated retain all their properties and is guaranteed to keep longer after delivery than freshly killed meat.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
Original and Only Genuine.
COUGHS,
COLDS,
ASTHMA,
BRONCHITIS

Dr. J. Collis Browne's Chlorodyne is a liquid medicine which assuages PAIN of EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, report that it ACTS as a CHARM, and is generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

Dr. J. Collis Browne's Chlorodyne is the TRUE PALIATIVE in Neuralgia, Gout, Cancer, Toothache, Rheumatism.

Dr. J. Collis Browne's Chlorodyne rapidly cuts short all attacks of Epilepsy, Spasms, Colic, Palpitation, Hysteria.

Important Caution.—The name of this Remedy has given rise to a scrupulous imitation. N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp, one of the inventor, Dr. J. Collis Browne. Sold in bottles of 1s. 6d., 2s. 6d., and 4s. 6d., by all chemists.

Sole Manufacturer,
J. T. DAVENPORT,
83 Great Russell St. London, W. C.

Cuticura WORKS Wonders

In curing torturing, disfiguring, humiliating humors of the Skin, Scalp, and Blood when all else fails.

SPEEDY CURE TREATMENT.—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA ointment, the great skin cure, and mild doses of CUTICURA RESOLVENT (new blood purifier).

Sold throughout the world. British depot: F. Newbery & Sons, 1, King Edward-st., London. FOREIGN DRUGS AND CHEMICAL CORPORATION, Sole Proprietors, Boston, U. S. A.

THE RIO'S LINE SHIPS.

And Sends an Iron Ring Into the Pilot's Office.

An iron ring, such as is used around the tops of the mooring posts on the Pacific Mail wharf, is not a pleasant thing to be hit in the head with, is what Captain Lorenzen thought early Saturday morning.

It was just about 6-30 a. m. and the P. M. S. Rio de Janeiro was coming alongside the Pacific Mail wharf. No bow line was sent ashore, but a spring line was thrown out, and after being passed around the mooring post at the mauka corner of the wharf and the one opposite at the makai corner, it was passed to the bow and attached to the donkey engine aboard.

Then came a steady pull. The rope tightened and kept slipping up toward the top of the makai post, where there was an iron ring or band.

Suddenly there was a sound as if the line had parted, and of course a general scattering of people on the wharf. The ring was thrown against the pilot's office, smashing through the lattice work just above the head of Captain Lorenzen, who was sitting reading the Advertiser in a chair tilted back against the office, and striking the makai casing of the door with such force as to move it an inch and a half. This done, it rolled out and down the steps of the office to the feet of three natives standing near by.

It is needless to say that Captain Lorenzen vacated his chair and that Custom House Guard Murray, who was standing in the path of the missile, made a dive for the edge of the wharf.

CAPT. SWANSON KILLED.

Fell Through Open Hatchway. Died in Hospital.

SEATTLE, Wash., Aug. 8.—Captain Swanson of the bark Matilda fell into an open hatchway of his vessel while on his way from Port Townsend to Port Blakeley last night, and died in the hospital here today. Captain Swanson was well known on the Pacific, where he has sailed for about twenty years. He leaves two children, who inherit an eighth interest in the Matilda. The bark was in the lumber trade between Puget Sound and Honolulu.

WHARF AND WAVE.

The schooner Ada will sail for Hilo this afternoon.

Port Blakeley—Arrived, August 8, bark Matilda, from Honolulu.

Valparaiso—Arrived, August 4, Haw. schr Honolulu, from Glasgow.

Hong Kong—Sailed, August 8, Br. stmr Gaelic, for San Francisco, via Yokohama and Honolulu.

The Mikahala has been completely overhauled, a new boiler has been placed in her and she has been fitted out with electric lights. Her first trip will be made Tuesday, August 28th.

The American bark Albert, Griffiths master, arrived Sunday morning, 14 days from San Francisco, with a full cargo of general merchandise, 16 horses and one jackass. Two of the horses are for the Honolulu fire department.

The American bark S. C. Allen, Thompson master, arrived from San Francisco yesterday. Following is the captain's report: Left San Francisco at 12 noon August 9th; had remarkably fine weather with moderate breezes all the way; arrived in port at 11 a. m. August 23rd with a cargo of about 700 tons of general merchandise, 8 horses and 23 mules for B. T. McCullough who came down with them; also one horse for the Inter-Island Co.

The P. M. S. Rio de Janeiro, Ward commander, came into port Saturday morning and hauled alongside the Pacific Mail wharf. Purser Freeman furnished the following report of the voyage: Sailed from Hong Kong August 2d, and from Yokohama August 11th, at 12:05 p. m., arriving in Honolulu August 21st at 10:30 p. m. Fine weather throughout the voyage. Time, 11 days, 6 hours and 15 minutes. On the trip over to the Orient the Rio de Janeiro encountered a typhoon which delayed her arrival in Hong Kong. Here she went on the dry dock for a cleaning and slight repairs to her propeller. While here another severe typhoon delayed operations for a couple of days, so she was four days late leaving Yokohama.

RULES FOR SEAMEN.

As Evolved by the British Board of Trade.

To preserve discipline on board ship is not always an easy matter, and the master often becomes a tyrant through necessity. The Board of Trade, however, has interfered with salutary effect, and while it protects the sailor from tyranny, it also takes care that he shall be on his best behavior. In truth, poor Jack has not very much liberty if the following penalties are imposed:

For swearing or using improper language he forfeits one day's pay.

For quarrelling or provoking to quarrel he suffers the same.

The same punishment is inflicted on the man who carries a sheath knife.

If he brings spirits on board he loses three days' wages.

For every smoke indulged in "below" he forfeits one day's wage.

The same if he neglects to put out lights when ordered.

If the lookout man falls asleep him pays costs him two days' pay.

If the cook has not dinner on the table at the stroke of the clock it is a matter of one day's pay.

For not attending divine services on Sunday the fine is one day's pay and even though he attends if he does not behave reverently he loses the same sum.

For washing clothes on Sunday he pays a day's wages.

And for not being shaved washed and cleaned spick and span on the Sabbath he loses one day's pay, also in addition to master or mate means one day's pay lost, and for striking any one on board double that amount.

While for attempting to smuggle a few pounds of tea or tobacco or a gallon of rum he loses the wages of a whole month.

METEOROLOGICAL RECORD.

S. B. ROSE, Secretary.

Capt. J. A. King, Port Superintendent, Honolulu, H. I., Jan. 1, 1896.

When you get into a tight place and everything goes against you, till it seems as if you could hold on no longer, never give up then, for that's just the place and time that the tide'll turn.—Harriet Beecher Stowe.

In the Supreme Court of the Hawaiian Islands.

In Vacation.

A. F. Gonsalves v. Pakiko.

Before Frear and Whiting, JJ.

A judgment of a District Magistrate is reversed and a new trial ordered by consent of the parties for errors as given and confessed.

OPINION OF THE COURT, BY FREAR, J.

Error from the District Magistrate of South Kona, Hawaii, in an action for \$164.05 the balance claimed to be due plaintiff from defendant for work and labor done on a house.

The District Magistrate, after hearing the parties, ordered the plaintiff to do certain things to complete the house, and the defendant to furnish the materials therefor and upon completion of the work to pay plaintiff the amount claimed, \$164.05, or upon failure to furnish the materials within a reasonable time to notify the plaintiff and pay him forthwith the said amount.

The plaintiff assigns as errors: That the Magistrate was without jurisdiction to decree specific performance of the contract, he having no equity jurisdiction; that judgment should have been rendered for either the plaintiff or the defendant; and that it is erroneous and void in that it was rendered for both parties and in that it cannot be enforced by any process that the District Magistrate can issue.

The defendant in his return admits each of these errors.

The parties having filed a stipulation for a hearing in vacation by two Justices only, the Chief Justice being absent, and that an order may be made reversing the judgment of the District Magistrate and remanding the case to the District Court of South Kona, Hawaii, for a new trial, and directing costs herein to be divided, it is so ordered.

Creighton & Correa for plaintiff; Thurston & Stanley for defendant. Honolulu, August 10, 1896.

IN THE CIRCUIT COURT OF THE Third Circuit, Hawaiian Islands. In Probate. At Chambers. In the matter of the Estate of Rev. Elias Bond of North Kohala, Hawaii, deceased.

Order of hearing and publication of notice for probate of will. A document purporting to be the last will and testament of Rev. Elias Bond of N. Kohala, Hawaii, deceased, having on the 20th day of August, A. D. 1896, been presented to said Probate Court, and a petition for the probate thereof, and for the issuance of letters testamentary to Elias C. Bond, Benjamin D. Bond and Caroline S. Bond, having been filed by Benjamin D. Bond.

It is hereby ordered that TUESDAY, the 6th day of October, A. D. 1896, at 10 o'clock a. m. of said day, at the Court Room of said Court, at North Kohala, Hawaii, be and the same hereby is appointed the time and place for proving said will and hearing said application.

Dated Hilo, Hawaii, H. I., August 20th, 1896.

By the Court: DANIEL PORTER, Clerk. 1788T-3ta

IN THE CIRCUIT COURT, FIRST Circuit of the Hawaiian Islands. In Probate. In the matter of the Estate of J. C. F. HORN, late of Honolulu, deceased.

The last will and testament of said deceased, having been presented to said Court, together with a petition for the Probate thereof, and for the issuance of letters testamentary to Ruth Horn having been filed, notice is hereby given that FRIDAY, September 11th, A
